Directory: HIEEP ED Dispositions	██████████	01/16/15, 2:07 p.m.	CPUC staff waives the post-installation review of this project. PG&E will apply a GRR of 0.9 to the final M&V ex ante savings results of approximately 900,000 kWh at project claims. PG&E will upload all final documentation for this project to the CMPA. PG&E will also upload to the CMPA a document indicating this project's claim ID number and the quarter and year this project was claim when those information are available. Thank you.
File: PGE 1018-03_X374_Phase_II_EAR	██████████	11/12/13, 1:51 p.m.	This project's ex ante savings are conditionally approved pending submittal of the final project savings claim being in compliance with all of Energy Division's request identified in the Phase I and this Phase II review. ED requests that the IOU undertake the recommended steps and submit the requested information due upon completion of the project.
File: PGE 1018-03 phase I EAR (X374).pdf	██████████	09/30/13, 2:45 p.m.	The ex ante savings are conditionally approved; pending submission of the revised savings using correct baseline, excluding the occupancy sensor savings, and submitting the second baseline savings. ED requests that the IOU undertake the recommended steps and submit the following information due on 10/14/2013 (or 14 days from submittal date to IOU).
